On motions by Councillors Lissimore and Cork respectively, By-law No. 346 was read the first and second time.

On motion of Councillor Cork, the letter from Mr. H. D. Carrigan, secretary-treasurer of the Post-War Re-

New Federal Order Will Augment Tires

Some relief to the motor car problem is expected to be given by the federal order removing restrictions on retreading of passenger automobile tires. More cars are expected to be put in shape for operation on the highways, which also may mean an increased number of car registrations in the present license year.

It is claimed that there are hundreds of passenger car owners who have been waiting for the federal order to become effective so that the tires could be retreaded. Thus, tires will be given a longer life, and another step taken along the line of conservation.

Information received by the Alberta Motor Association indicates that no great difficulty is anticipated by retreading service shops in obtaining necessary material for retreading passenger car tires. While securing of supplies was difficult last year, it has not been so this year.

The new ruling also will prove of great benefit to war workers who make use of this transportation to a great extent in each community where such plants have been established.

In some quarters it has been suggested that the general situation will be substantially eased when synthetic rubber is made available, possibly later on this year, from the new plant under construction at Sarnia, Ont.

Save Your Apairy Equipment

Now that the honey crop is removed, the beekeeper will be well repaid by paying careful attention to the protection of his equipment, says C. A. Jamieson, Bee Division, Central Experimental Farm, Ottawa.

Extractors should be washed both inside and out with hot water to remove all traces of honey. All storage tanks and everything that comes in contact with honey should be cleaned in the same manner. There used to be an idea that extractors and tanks should be left smeared with a film of honey until used again; but this proved erroneous because of an acid in honey which acts upon the iron that becomes exposed when the zinc plating is broken. Storage in a dry atmosphere after thorough washing and drying keeps the metal surfaces in better condition.

This is the time of the year that the wax moth is most dangerous. Many eggs are laid in the cracks of the supers while still on the hives. Fortunately the bees will look after any larvae that enter their hive, but when the supers are removed it is the beekeeper's responsibility to destroy this pest.

Paradichlorobenzene, more commonly called "P.D.B.", is a safe and effective fumigant for this purpose. Supers may be stacked 5-6 high on an inverted lid with all cracks between supers covered with gummed paper to prevent leakage of the gas, paper on the top super and cover tightly. The gas is heavier than air and will penetrate to the bottom of the pile. The treatment should be repeated two or three weeks later in order to destroy larvae from newly hatched eggs.

More Individual Subscriptions will be needed to put this loan over the top. Be prepared to do your part when canvassers call on YOU.

Canada's Fifth Victory Loan Campaign will be launched on Monday next, October 18th, when it is hoped to exceed the sum of \$1,200,000,000 which has been set as the goal for the loan for the whole Dominion.

With the war news more favorable to the United Nations, there may be a tendency on the part of many to hold back, and take it for granted that "all is well anyway", but such is far from being the case.

Events in the war theatres may be somewhat encouraging, but this is certainly no time to slacken the efforts being made on behalf of our gallant fighters to keep them supplied with all necessary supplies for a finally successful conclusion of the great struggle.

There is one sure way to "Speed the Victory", and that is by each and every one contributing to the effort to their very utmost. Therefore—Be prepared to go to the limit when YOU are called upon to lend for the "Fifth Victory Loan".

Grand Chapter Head Visits Eastern Stars

Mrs. Eva Lonsberry, provincial worthy grand matron of the Grand Chapter Order of Eastern Star, paid her official visit to Connaught Chap. No. 8, in town, on Friday evening last.

A large number of members of the local chapter, as well as visiting members from Wetsakwin, Lethbridge, Bowden, and other places, was in attendance, and during the business of the evening a new member was initiated into the Order, as well as the work exemplified.

The visiting official gave a splendid address to those present and at the close, lunch was served by the refreshment committee which was enjoyed by all.

Local Couple Celebrate Silver Wedding Ann.

Mr. and Mrs. W. T. Brunker, who were married 25 years ago at Mar-mora, Ont., celebrated the event by Open House on Sunday last, Oct. 10.

Mrs. Brunker wore a brown dress trimmed in sand, and a corsage of tallman roses.

Floral decorations were golden crysanthemums, red carnations and white baby 'mums. The table was laid with a lace cloth, centre-piece being the three-tiered wedding cake, and on either side bud vases of tea roses, Mrs. M. Tekford, Mrs. W. S. Clarke and Mrs. Lopper poured tea, while those serving the many guests were Mrs. J. Donaldson, Miss Jean Elder (Saskatoon), and the Misses Marguerite and Glenna Brunker, Mrs. W. C. Huntingford, and Miss Beth Elder (Vermilion) were in charge of the guest log-book.

The many cards, gifts of silver and the numerous guests who called showed the esteem in which this couple is held, and The Star adds its hearty congratulations to these esteemed old-timers of our town.

WEDDING BELLS

MILTON-STOCKTON

Mr. William Stewart, son of Mrs. Wm. Milton of Fabyan, and Miss Deloraine Evelyn Stockton, daughter of Mr. and Mrs. Q. Stockton of Irma, were married quietly in St. Andrew's Presbyterian church on Tuesday evening, October 5th. Rev. H. L. Wilson performed the ceremony and Mrs. Milton and Mrs. Esther Peterson of Irma acted as witnesses.

The many friends of Mr. Fred Aykroyd will be pleased to learn that he is now progressing nicely after his recent operation in Edmonton.

C.N.R. Employees Prepare for Loan

Montreal—The first shot has been fired in the Canadian National Railways front for the Fifth Victory Loan campaign and its echoes have been heard in every office, shop, roundhouse and in all buildings where workers congregate throughout the system's numerous establishments in the nine provinces of the Dominion.

The opening round comes in the form of an eye-catching poster which is being placed on every bulletin board in shops and roundhouses and prominently displayed in all offices and stations. The color quickly attracts and it requires only an instant to read the brief message which is an appeal signed by R. C. Vaughan, chairman and president of the Canadian National Railways and reads: "I am confident that the men and women of the Canadian National system will break all their previous records in buying the bonds of Canada's Fifth Victory Loan and so hasten victory."

This initial appeal is being posted in all company establishments in such manner as to ensure that it will be read by each one of the 94,000 employees working on the lines in Canada and in the subsidiary companies.

National Parks In Wartime and After

Despite increasing travel difficulties, attendance at the national parks is still running to substantial figures. In 1942-43, more than 126,500 persons visited Banff National Park alone, and the figures for this year are holding up surprisingly well. About 25 or 30 percent are men and women from the Armed Forces, including many airmen from Great Britain and the other Dominions. Such visits should have an important effect in promoting interest in the national parks in other countries within the British Commonwealth, and also in the United States.

It is apparent that due to wartime conditions a great desire for travel and change is being dammed up, which will express itself with the return of peace. Before the present restrictions came into effect the national parks were receiving more than a million visitors each year. It may be expected that the demand for recreation and travel after the war will be greater than ever before, and as the national parks rank among the greatest of Canada's playgrounds, they will be called upon to play a leading role in post-war recreation.

Apart from promoting understanding and good-will between neighbors, an annual influx of visitors from other countries brings a market for Canadian agricultural products, handicrafts and manufactured goods right to the door of the producer. It also furnishes increased revenues to transportation companies, hotels, and all the other enterprises catering to the travelling public.

The preservation and promotion of good health among Canadians is likely to occupy a place of prominence in post-war planning. An annual vacation with pay is being advocated in many quarters for people of all income brackets. Travel education is becoming part of our "way of life" on this continent, and travel to the national parks will give Canadians a better idea of the magnitude of their country.

Many of the young men from the Armed Forces of the United Nations who visit the national parks express a determination to come back after the war, and are forwarding literature to their friends and relatives abroad in the hope of inducing them to visit Canada when final victory has been achieved. Canada may, therefore, during the early post-war years, be called upon to cope with an influx of visitors from other lands such as this country has never experienced in the past.

By a deal which was made last week, Mr. Henry Swanson has now disposed of his business to Mr. R. I. Bond who will attend to all taxi calls to the future.

New Permanent Staff Set Up For Hospital

The regular monthly meeting of the Board of Trustees of the Wainwright Municipal Hospital District No. 17 was held on Saturday last when Chairman O. J. Gould and Trustees Mrs. Washburn and L. Oxy were the only members present.

Minutes of the last regular meeting were read and on motion of Trustee Oxy were adopted.

Minutes of the special meeting were read and on motion of Trustee Mrs. Washburn were adopted.

Patients admitted	57
Patients discharged	54

Control Distribution Of Canned Vegetables

OTTAWA—Canned vegetables frozen in packers' and wholesalers' hands by the prices board last July to ensure supplies for winter will soon move to retail outlets under a new system of "controlled distribution," the board announced Friday.

The statement indicated that formal rationing of canned vegetables is not in prospect.

Aim of the new distribution plan is to handle supplies so as to meet normal consumer needs during the winter season. Details of its operation were not made public immediately.

"Withholding the current pack of canned vegetables by the freeze has substantially improved the supply position for the balance of the year, and it is expected that victory production will also tend to ease the situation," the Board said.

Re Collections

ALL persons indebted to the above Hospital Board are required to settle up their outstanding accounts at the earliest possible moment, and thus assist in keeping down expenses (which can only otherwise be met by an increase in taxes).

In these strenuous times, the use of gasoline, and other car expenses for collections becomes prohibitive, and unless every effort is made to reduce these accounts at once, drastic measures will have to be taken for such collections.

Help the hospital to continue to give you Full Service by thus assisting to reduce costs of operation.

By order,
GORDON GRAHAM, sec.

20-10

Miss G. Sim, R.N., matron; Nurses Cram, Hurley, Evenson, and Hutton; and B. Gardiner, laundress; and L. Walker, and F. Hughes, maids.—Carried.

Moved by Trustee Oxy that children under sixteen years of age will not be allowed to visit patients unless permission is first obtained from the Matron or nurse in charge.—Carried.

Moved by Trustee Mrs. Washburn that accounts amounting to \$1450.83 be approved and cheques issued.—Carried.

Moved by Trustee Oxy that the meeting adjourn. The next regular meeting to be held November 13th, 1943.—Carried.

Credit Union Loans Total \$1,226,487

Eight thousand nine hundred and eight members of credit unions in Alberta have loaned a total of \$1,226,487 from 120 credit unions since they have been in operation, Premier Ernest Manning, minister of trade and industry, said Friday in a monthly report.

Five new unions were incorporated in August, bringing the number started in 1943 to 40. August assets of the credit unions totalled \$387,000, a \$40,000 increase over July.

Unions incorporated in August, are located at Craigmyle, Edberg, Smoky Lake, Eagle Hill and Thoraby.

Canadian Butter Is Still Going to Britain

Ottawa—Agriculture Minister Gardiner told The Canadian Press today that upwards of 7,000,000 pounds of Canadian butter is being shipped to the United Kingdom to help maintain the butter ration there.

"The minister said it may not be possible for Canada to meet the full contract for 150,000,000 pounds of Canadian cheese to the United Kingdom during the present calendar year but that when the butter shipments are taken into account total Canadian shipments of dairy products will "not be far short of the total asked for."

CARD OF THANKS

While expressing my thanks for the patronage heretofore accorded me, may I bespeak for my successor (R. I. Bond) a continuance of the business I have now disposed of.

A WEEKLY EDITOR LOOKS AT Ottawa

Written specially
for the weekly newspapers of Canada

Taking a week's holiday from this
news letter turned out to be a bus-
man's holiday and I wound up in Re-
gina, Sask., Queen City of the Plains
taking in the annual convention of the
Saskatchewan Division of the
Canadian Weekly Newspapers Associa-
tion.

After two days and two nights on
the train, Ottawa and its hive of war
activity seems a remote place. Out
here on the long stretches of flat
prairie, with the manpower available,
the farmers are garnering a crop
which, while it isn't so much com-
pared to last year's record bumper,
will contribute greatly to feeding the
United Nations.

For miles and miles on end one
sees threshing rigs going full blast
and numberless straw racks—golden
yellow mounds that tell a story of
nature's gift in fruition. On the train
which rumbles ceaselessly on, is
found part of the public opinion of
Canada, and for anyone interested in
the dissemination of information here
is a fountain of interesting hours to
be spent. It is on a train too, I think,
that some of the mechanics of public
opinion is moulded and considerable
inter-sectional goodwill is cemented.
But rumours are also spread, and mis-
information is spilled around promiscu-
ously. And it is also where political
hash is potted.

More people are travelling than
ever before; and more people are
learning more about Canada than
they ever did before. Good will come
of it. I was talking to a western agri-
culturist who had been down in Que-
bec taking a looksee. He had probab-
ly hated to persuade himself, but he
admitted frankly that the Quebec
farmer "was doing a good job"—that
he was in most cases, and in his own
way, really farming better than the
westerner had given him credit for. I
only mention this because it shows
what travel and inter-mingling can
do for a people.

You run into interesting things on
a train alright. I talked with a diplo-
mat's wife who was just three weeks
away from Stockholm with her two
small children and a Norwegian
nurse. A high priority got her out of
Sweden by plane. Some of her obser-
vations I think will record here some-
thing that I haven't seen suggested
anywhere in the press of Canada or
the United States. She had spoken to
newspaper people in Stockholm, to
people from Germany who had been
in Sweden on business, to refugees
just escaped from occupied Norway,
and she said the feeling is growing
that Germany will soon quietly move
out of Norway and be rid of what's
turning out to be a decided pain in
the neck to her—economically, mili-
tarily, and otherwise. This is the
"something" that I haven't seen even
suggested before.

She said conditions in Norway are
terrible, worse than what you read
about. There is an average of about
forty Norwegians getting out every
day to Sweden and she has had the
opportunity of getting first hand in-
formation. She confirmed the reports
that no German troops have moved
through Sweden for some time, ever
since the Swedish government pro-
nounced that edict.

"The weekly newspapers constitute
the veritable backbone of public in-
formation. They reach a reading
group that the dailies barely touch.
They enjoy an intimacy of relation-
ship with their subscribers that met-
ropolitan newspapers regard with en-
vy but can scarcely hope to equal be-
cause of their much greater, and
thereby more impersonal, circula-
tion."

able here to run things as are avail-
able to run everything in the coun-
try. What the individual citizen may
think about is whether he really
wants to have a system under which,
in his own town, the local factories
would be run by the local authorities;
in which wages and working condi-
tions would be set by town by-laws;
in which the local stores would all be
combined into one big store, run by
the town; in which the price of every-
thing which comes in from the coun-
try on the market and the price of
everything which is sold to the farm-
er in the surrounding countryside
would be fixed by the local authori-
ties.

Of course, out on the farms which
are tributary to the town, the farm-
ers would have to plant the crops,
pay the wages, and do the work
which the local authorities instructed
them to do.

If the community was to remain a
democratic one, then the local authori-
ties would have to be elected by the
townspeople and the farmers of the
surrounding area.

That is Socialism. It is just as sim-
ple as that. The more the individual
citizen thinks this over, the less like-
ly it seems that he will really like
this system. Under it, of course, no
individual would ever start a new fac-
tory business. That would be some-
thing to be settled by the authorities.

They would have to think of what
might be profitable to make in this
town, and then tax everyone to pay
for building the factory in which it
was to be made. Of course, if the
goods from that factory were to be
sold outside a town and its own farm
area, the quality and price of these
goods would have to be settled by
some more important central authori-
ty—but that would only be an au-
thority very much like the town coun-
cil. After all, the same sort of people
get elected to Parliament as get elect-
ed to town councils; the same sort of
people are civil servants at Ottawa
as are employed by town authorities.

If the Canadian people could only
get accustomed to thinking of Social-
ism in these terms, they would have
a pretty good idea of how it would
work—and it does not seem likely
that there would be so many people
advocating Socialism as there now
are.

Should Victory
Come Tomorrow

If, for some unexpected reason, vic-
tory should come tomorrow, would it
find each of us ready to join in joyful
and solemn celebration? Would we
be with those thanking God for the
safe return of loved ones and for
their own survival? Or would we be
with the few who were glad only be-
cause it was all over and they had
not been called upon to serve, had
made no great sacrifice in their jolly
living, had not been hurt in any way?

When the armistice finally comes,
there will suddenly be some very un-
happy people. Not unhappy because
the war is over but because it has
dragged through its course without
their having made the contribution
required of every man, woman and
child. There is no way of measuring
just what each person's contribution
should be. For some it is sons and
daughters, for some unremitting toil,
for some long, unpaid hours at labors
of love, and for others the high gift
of life itself. Against these things the
lending of money at secure rates of
interest may not seem very noble.
The truth is, however, that it is a
very important way of assisting, and
one which our country cannot well do
without.

Canada's Fifth Victory Loan has
as its minimum objective the raising
of \$1,200,000,000, or more than \$100
from every individual. There are
many who are unable to subscribe
anything, so it is up to the rest of us
to lend all we possibly can, both with
cash and on the instalment plan.
Then, should the enemy be subdued
sooner than hoped, we should at least
know that we had done our part in
backing our fighting men and mater-
ially helping to SPEED THE VIC-
TORY!

All letters must be signed by the writer

A letter from Ernest Lindseth to
his father, Mr. K. Lindseth, dated
July 31, 1943, while of almost purely
personal interest, gives information
that the writer was in the blitz on
Sicily, and has now gone on with his

Although the censor has vetoed the

the letter, we are sure that our read-

FARMERS AND FARM WORKERS

If Your Farm Work has Slackened
for the Winter, You Are Needed
Elsewhere in Essential Employment

Highly essential work—very important
in Canada's war effort and for the
welfare of the Nation—is threatened
with shortages of workers. One of the
few sources of men available for other
high priority jobs is those men on the
farm who will not be needed at home
during the Fall and Winter. Heavy
needs must be met in many lines—
producing vitally essential forest pro-
ducts; in base metal and coal mining,
in food processing, in railway track
maintenance. If you live on a farm
and are not needed at home during
the Fall and Winter, you are urged to
answer this national appeal.

Farmers engaged in essential work
during the off season will be allowed
to return home when needed. Also,
those on postponement under Mobiliza-
tion Regulations will continue on
postponement while in approved essen-
tial work during the slack season on
the farm.

Please answer this vital call NOW.

TOWN COUNCIL

A good way to look at this talk of
Socialism, and a Government which
runs everything, is to think of how
this would work in a Canadian city
or town—especially in one of the
smaller places.

After all, Canada consists only of
communities, and it is quite easy to
get an idea of what might happen in
Canada as a whole by thinking of
what might happen in one commu-
nity.

Ideal Weather Prevails
For Harvest Operation

The Bank of Montreal's crop re-
port No. 14 says that in the Prairie
Provinces, rapid progress has been
made with harvesting during the
past two weeks. Ideal weather has
prevailed generally and threshing is
practically completed in Manitoba
and in some sections of Saskatchew-
an and Alberta. While the quality of
out-turns has been generally satisfac-
tory, grades are lower in some parts
of Saskatchewan and Alberta as a re-
sult of frost damage.

Pastures are suffering from lack
of moisture in some southern sections
of Saskatchewan and Alberta. Good
progress is being made in harvesting
a satisfactory beet crop.

In British Columbia, picking of an
apple crop of less-than-average yield,
with quality in general good, is well
advanced, and the gathering of pears
and prunes is almost finished. Veget-
able crops generally are good. Har-
vesting of grains, with yields from
fair to good and of good average
quality, is nearing completion.
